

Public Safety #2 (126 words)

Michigan's county sheriffs and their deputies are on the front lines of protecting our families and our property. Every day, they must respond to emergency calls by driving over crumbling, pot-holed roads and bridges that are a danger to motorists, and to those officers. I read that the Michigan Sheriffs' Association is supporting Proposal 1 on the May 5 ballot because it solves the state's road funding problem and will finally guarantee funding for safer roads in the constitution. Keeping us safe is dangerous duty enough for our first responders. They deserve roads that don't threaten their public safety while they are trying to protect us. Please vote "yes" on Proposal 1 on May 5, for safer roads and for our public safety officers and firefighters.
