Traffic Regulating Instruction Manual

In partnership with Industry, the Michigan Department of Transportation has developed an updated Traffic Regulators Instruction Manual, dated June 2010. This revised manual provides updated information, procedures, practices and guidelines for safely and effectively regulating traffic in work zones.

Effective immediately all traffic regulators and supervisors are required to read the revised manual.

The current manual can be found at the following website:
http://www.michigan.gov/mdot/0,1607,7-151-9625_54944---,00.html

A special provision to update the Standard Specifications for Construction is being developed.

Please provide this advisory to local agencies and consultants in your area.
