

CONTRACTOR ANNOUNCEMENT

Changes to BidX site effective September 25, 2026

On September 25, 2026, BidX is rolling out three updates across the BidX site:

- **‘Lettings’ page will be renamed ‘Advertisements’:** The page currently called **Lettings** is being renamed **Advertisements**. Along with the new name, results can now be filtered by **Status** (Upcoming or Ended), **Agency**, **Date Range**, and **Work Tags**. Multiple agencies can now be selected at once through a filter, allowing contractors to see more opportunities across agencies in a single view.
- **Agency list:** The list of agencies is moving out of the **Agency Picker** dropdown at the top of the page and into a new **Agencies** tab in the left-hand menu, where contractors can find agencies using the search field.
- **Navigation menu:** Small Business Network is moving to the bottom of the left-hand menu. The rest of the existing tools will remain in place.

Questions about these changes can be directed to bidx.support@infotechinc.com.
