

CONTRACTOR ANNOUNCEMENT

Upcoming Enhancement: Streamlined Bidding Process with Bidx.com

MDOT is pleased to announce upcoming enhancements to the bidding process, aimed at increasing efficiency and providing a more seamless experience for all approved bidders.

MDOT will implement enhanced bidding workflows via Bidx.com. This advancement eliminates the requirement for installed software, such as AASHTOWare Project Bids™ Bid, by enabling direct bid submission through your web browser.

Further information and resources, including a migration timeline, will be provided soon to ensure a smooth transition.
