

****CONTRACTOR ANNOUNCEMENT****

MDOT's Digital Signature Program When to Use DocuSign vs. OneSpan

On January 26, 2023, an e-mail was sent to users with instructions for requesting and accessing OneSpan using MILogin.

ProjectWise users must continue to use DocuSign applications to sign documents, including contracts, bonds, and the Affidavit of Indebtedness forms, until the second OneSpan release, scheduled for April 6, 2023, which will include a ProjectWise integration.

Any documents that are in process and have been signed with DocuSign will need to be completed using DocuSign.

All new documents that **do not involve ProjectWise** should now be digitally signed using **OneSpan**.

Contract Services Division is currently reviewing the processes for contracts, bonds, and the Affidavit of Indebtedness. If it is determined that changes in the current processes are required, instructions will be posted as a Contractor Announcement and will be sent via GovDelivery to Bid Letting subscribers, prior to the April release of OneSpan with the ProjectWise integration.

For questions regarding OneSpan, please contact MDOT-eSign@Michigan.gov.

For questions regarding contracts and bonds, please contact MDOT-Awards@Michigan.gov.

For questions regarding the Affidavit of Indebtedness, please contact MDOT-Estimates@Michigan.gov.
